-  Expat & International Communities

Reimagine Event Management

TicketBoard gives organisers the tools to **cut manual tasks, prevent entry fraud, and deliver seamless experiences** — while ensuring **data protection and scalability**.

 **Future-Proof Your Events. Experience TicketBoard Today.**

Key Features

Members Management

- Easily upload member details, including name, mobile number, email ID, and photo.
- Maintain a centralized database for seamless communication and event coordination.

Event Notifications & Ticket Booking

- Send instant notifications to all members about upcoming events.
- Members can download the TicketBoard app, validate their identity via OTP, and book tickets for themselves, family, and guests based on allocated quotas.

Flexible Payment Options

- Secure payments via integrated payment gateways.
- Option to generate a list for direct debit from members' accounts, simplifying bulk transactions.

Effortless Event Entry Validation

- Organizers can validate attendee entry using a dedicated mobile app that scans QR codes on tickets (or displayed directly in the app).
- Photo verification ensures security by matching uploaded photos with live attendees.

Real-Time Insights & Customization

- Admin dashboard provides live updates on ticket sales per category and real-time attendance tracking.
- Customizable ticket categories with variable pricing, seat assignments (via seat charts), and sponsor advertisements displayed in the app and e-tickets.

Ticket Transfer

- Don't Wait: If a family member is arriving later, please proceed without them.
- Ticket Transfer: You can transfer their ticket via the mobile app, and they can use the ticket on their own device upon arrival.

Scan Ticket

- Our app doesn't just sell tickets – it manages the entire sales process seamlessly.
- Our app also verify tickets with end-to-end processing and real-time validation on the location.
